Bright Dawn Celebrates 5th Anniversary...

When we began our charity activities on June 9th, 2010, we supported one school with 78 children. Today, we support 5 schools with 505 children.

We have kept our focus strictly on healthcare and educational support to Thai primary school children and we will continue to do so. Each year, we have tried to improve the quality of the healthcare services we provide. Beyond our core school meal program and annual medical check ups, we have added eye tests, dental kits, first aid rooms and regular physical education classes.

On the educational side, we have installed smart computer classrooms at each of our schools and have recently launched an English language learning project. We believe that if the children have computer skills and a basic English language capability, their job prospects, when they leave school, will be much brighter.

The Bright Dawn management team is now 75% female because they know what they are doing. Roger remains our token male.

Over 90% of our donors have supported our activities from the very beginning. We could not do what we do without your loyal and kind support, for which we give you our many thanks.

A HAND UP NOT A HAND OUT

Other News

Welcome Our New School...

We have commenced a new project at Wang Boat School in Hua Hin. This project includes a school meal program, canteen & kitchen renovation and annual medical check-ups for all the children. There are 61 students and 29 kindergarten children at the school. The school Director is Khun Willaiwan.

The canteen & kitchen renovation is starting this month and initial medicals will be done for all students in August.

Days of Fun...

Our Annual sport day was held recently at Nong Ta Chaw school. It was an exciting day for the students from all our schools. They worked hard to compete amongst themselves for the title of champion in the many events held on the day. The overall victors, for the second year running, were Nong Hieng. A huge thank you to Petcharat Hospital for providing, much deserved ice cream, for all competitors and spectators.

We took the children from all five schools to the cinema at Market Village to see the movie Jurassic World. For our new school, Wang Boat, this was the very first visit to a cinema for many of the children. I am sure you can imagine the excitement levels whilst waiting in the foyer.

We now have a vast array of dinosaur experts attending our schools!

English Language Pilot Project...

Our English Language summer school was held during the school break. It was attended by fourteen teachers, and very well received.

We are now planning phase two of the teaching program.

Nong Hieng Learning Center...

The learning center and first aid room at Nong Hieng School is now complete and fully operational.
