## English Language Program...

The key initiative in our 2015 Development Plan is to improve the English language capability of the teachers so that they can do a better job of teaching English to the children. The prospects of a child with a basic English language capability will be immeasurably improved.

A pilot project starts in April and is a 6 days summer school for teachers, comprising 2 hours of instruction per day. The main objective of this pilot project is to make learning English fun. The pilot project will be followed by a 12 week program for those teachers who wish to continue their English Language studies. This follow up program will be delivered online by way of a weekly assignment utilizing a Google Classroom format. The program will also include a 2 hour weekly face to face tutorial session with the English Language teacher.

The English Language program will be run by Scott Ward, the senior English language teacher at Rajabhat Suan Dusit University, Hua Hin Campus.

MAKE LEARNING ENGLISH FUN

## Other News

### Donations Update...

Our main annual fund raising effort is made over the Xmas and New Year period. Thanks to our wonderfully generous donors, this year we have already received over 2 million baht and have a further 1 million committed. This money will cover our operating expenses this year. A very special thanks must go to the Hua Hin Golf Society, who have supported Bright Dawn from our very beginning and raised almost baht 275,000 at their Christmas Charity Golf Day.

A big thank you must also be given to Target and Tonje Kittleson & Family for their very generous donations of toys and books for the children.

### Graduation Ceremony...

The school term has now come to an end. Nong Kra Toom School recently held their graduation ceremony for the kindergarten children that were moving up to Prathom 1 next term. They all received certificates and flowers in recognition of their efforts throughout the year, watched on by very proud parents.

### First Aid Rooms...

Fully functioning first aid rooms are now completed for Nong Ta Chaw and Huay Sai Ngam Schools.

We are in the progress of building a learning center at Nong Hieng School which will incorporate their first aid room. We will let you know more on this project in the next newsletter.
