English Program...

Our key initiative this year has been to extend our English language program to 4 schools. We strongly believe that, if the children have a basic English capability, then their job prospects when they leave school will be much better. Our intention is to hire a second teacher so that each child at all our schools will receive at least 3 hours English language instruction every week.

We have been given wonderful help from Julie Wood, Head Teacher of the Hua Hin International School, Shelley Gill, a very experienced primary school teacher, and Rada Fyfe. Julie's professional input has been invaluable, Shelley has prepared a new set of instruction material and Rada is introducing English to the kindergarten children at Wang Both School. We thank them all for their kind support.
