Other News

Enrolment increased 20% and health checkup results good...

Enrolment at our 5 schools has increased this year from 505 to 592 children. This primarily reflects the growing reputation of our schools under the dedicated leadership of the school directors but it also reflects the popularity of our school meal program with nearby villagers.

The medical checkups conducted last month indicate that the children are in good health. Only 2 children had serious health problems. Dr. Danai was especially pleased with the improved health of the younger children.

The medical check-up reports indicate that the Bright Dawn School Meal Program is having a positive effect on the health of the children at all Schools. This would not be possible without your continued support and your donations are demonstrably changing lives.

New Computer Room for Huay Sai Ngam ...

We have recently installed computers in a purpose built building at Huay Sai Ngam School. This new computer center is proving a big hit with all the kids.

Exam Results

We are delighted to report that all 54 children who sat their high school entrance exams, passed. This is a great credit to the school directors and their teaching staff.

Most major Thai companies require a high school certificate as a qualification for an entry level job.
