## Some Fun at Last!

### All 5 Schools visit Black Mountain Water Park

We managed to get all the kids out for a day of fun at Black Mountain water park in December. It has been a tough year for them and it gave us great pleasure to see the smiles on their faces!

And we didn't forget the teachers, they deserved some fun too. We held a Thai themed party for them to celebrate the end of a difficult year.

Unfortunately the fun was short lived as the schools shut down again in January!

# Welcome K. Ananthaya

## New director for Huay Sai Ngam School

K. Ananthaya joined Huay Sai Ngam in November as the new director. She was previously a teacher at another Bright Dawn school, so we are old friends.

We wish her every success in her role and look forward to working with her.

## 2<sup>nd</sup> School Closure

With the threat of a second wave of Covid the schools were once again closed in January for a month. We supplied the parents with food for that month, but unfortunately could not continue the education. Distance learning is available in Thailand, but sadly, only a handful of children from our schools have access to this in their homes.

# Donation Update

In 2020/21 so far, we have received B2.8m, which is around 50% of our target for the year. We are very grateful for the loyalty and continued support of all our donors.

In this sadly persistent global turmoil, charitable donations are more uncertain than ever but we fervently hope that those who are able, will continue with their generous support.

## New Building at Nong Kra...

We have been given planning permission to proceed with our project to build an English center and a computer lab at Nong Kra School.

This school is in desperate need of more classroom space, due to the main building being in a serious state of disrepair.

We plan to break ground on April 5<sup>th</sup>.

## The New Normal...

We have supplied the schools with infrared thermometers with automatic gel dispensers to help them comply with the new regulations and make registration time a little easier.

## English Intern...

We were joined by Suthitiya Janmueng, a student of Rajamangala University, for a three month internship. She worked alongside K.Nace as a teaching assistant. She worked enthusiastically and was very helpful, plus the kids loved her.

We are looking forward to working with this university for future interns.
