Cheerleaders in action!

Our Annual Sports day makes a very welcome return...

It was a great day when our annual Bright Dawn Games resumed after a 4-year absence due to COVID restrictions. It's so wonderful for the children to have the opportunity to come together, learn team spirit and sportsmanship, and compete in a variety of sports. We're so glad to have the Bright Dawn Games back and to be able to offer this amazing experience to all five schools!

The morning kicked off with a fun and festive parade, full of kids, marching bands, and bright colors, followed by a beautiful display of traditional Thai dancing. After that, it was time to get down to the games!

Congrats to K.Ome and his team for a great day at Nong Kra school providing a fun and enjoyable experience for all. It was especially heartwarming to see so many parents in attendance. Special congratulations to Nong Kra Toom school, the overall winners of the event.

Schools Get Hygiene Upgrade with New Toilets and Shower Facilities

Shower room at Wang Both school

As part of our hygiene incentive, our team has been hard at work to make sure that the students at our schools have access to proper hygiene facilities. We have now built toilets and shower rooms at four of our

schools to ensure that our students are able to maintain their personal hygiene and stay healthy. This effort is part of our long-term goal to create a better learning and living environment for the students

Annual Medical Check-Up Program: Ensuring the Health and Well-Being of Our Students

Eye testing

Our annual medical checkup for all students is an important part of our healthcare program. The checkup includes basic height and weight measurements, medical tests, eyesight testing, hygiene checks and child development testing. Through this checkup, we are able to catch any health issues early and provide our donors with a measure of the success of our school meal

program and hygiene incentives. The health and wellbeing of our students is our priority, and we are proud to provide these checkups for our students every year.

This year, we wanted to encourage the children to attend their medicals. As an added incentive, each student received a bright red hoodie upon completion of their examination. This was a great way to reward them for their commitment and dedication to their health. The red hoodie was a symbol of their accomplishment and could be worn with pride. We hope that this gesture will motivate them to continue taking care of their well-being in the future.

Huay Sai Ngam School Extends Computer Room to Prepare Students for the Future

At Huay Sai Ngam school, we have taken the decision to extend and upgrade their computer room to keep up with the increased numbers of students. We believe that equipping our students with the necessary digital skills is paramount to their success in the future. We are confident that our investment in the computer room will greatly benefit the students in their studies

Collaboration with Silpakorn University

We are excited to announce that we have arranged for the agricultural department at Silpakorn University to visit our schools and help us to develop Market Gardens. This is an incredible opportunity for our students to learn more about sustainability and environmental protection while growing their own food. This project will also provide an opportunity for our school community to come together in a meaningful way to create something that will benefit our students for years to come. We look forward to seeing the results of this collaboration and hope that it will help to create a positive impact on our school culture.
