Growing master class at Silpakorn University

Cultivating Seeds of Inspiration and Opportunity!

At Bright Dawn Foundation, we believe in broadening horizons and empowering young minds to explore a world of possibilities. In December we held our first inspiration trip for this financial year where our P5 & P6 students from all 5 schools had the incredible opportunity to visit an agricultural university.

Through this inspiring experience, we aim to ignite a passion for agriculture and environmental stewardship in these young learners. They had the chance to learn from experts, explore cutting-edge facilities, and engage in hands-on activities.

By exposing these children to diverse career paths and future opportunities, we hope to encourage them to dream big and pursue their passions. From sustainable farming to agricultural research, the possibilities are endless!

We are grateful to Silpakorn University Agricultural department who made this experience possible. Together, we are sowing the seeds of inspiration and nurturing the next generation of agricultural leaders.

Celebrating the Success of Our Market Garden Program

Soaps & Balms made at Wang Both School

Fish Farm at Nong Hieng School

We are thrilled to share the success of our market garden program. Wang Both School is now crafting herbal soaps and balms, while Nong Hieng has a safe platform at their fish farm for students to care for the fish. All five schools are growing vegetables as well as collecting eggs from their chickens.

These initiatives are not only teaching valuable skills but also feeding the children and generating extra income for the schools. We are proud of the hard work and dedication of our students and the teachers in making these programs a success. Together, we are creating sustainable opportunities and empowering our community to thrive.

Unleashing Musical Talents!

As part of our Creative Club, we encourage the students to explore various forms of expression, including traditional Thai music! Music education not only fosters creativity but also enhances cognitive skills, boosts confidence, and promotes teamwork. By embracing the power of music, we are creating well-rounded individuals who can thrive in all aspects of life. Hua Hin International school are now sending students each week to Nong Hieng school as part of a music exchange program.

Transforming Classrooms for a Brighter Learning Experience

Nong Hieng classroom

Last year, we launched a competition for our teachers to design classroom interiors that would inspire and motivate their young students to study more. The winning designs from Nong Kra and Nong Hieng have now come to life! By creating engaging and inviting learning spaces, we are fostering a positive and enriching environment for our students to thrive in. It's incredible to see the impact of these transformed classrooms on the children's enthusiasm and enjoyment of learning.

Fun in the Sun at Black Mountain Water Park!

Day of Fun at Black Mountain

Check out this snapshot of the kids having a blast at Black Mountain Water Park. They are enjoying a well-deserved break from their school studies and making unforgettable memories under the sun.

We believe in the importance of balancing academic learning with fun and relaxation. It's all about creating a well-rounded experience for our young learners.

Building Bridges Through Language Learning!

Reading Together

We are thrilled to have the Year 12 students from Hua Hin International School visit our school every Friday to help our students with their English lessons. By fostering this partnership, we are not only improving English language skills but also fostering cultural exchange and friendship among students.

Keeping Clean and Healthy with Bright Dawn Foundation!

Newly renovated salon at Nong Kra Toom School

Good hygiene is crucial for the overall well-being of children, and this includes proper lice removal and prevention. We have taken a proactive approach to educate our young learners by converting old concrete water tanks into a hair salon at Nong Kra Toom school. Here, children are actively learning about the significance of cleanliness and hygiene in their daily lives.

By instilling the importance of lice removal and maintaining good hygiene practices, we are empowering our students with valuable habits that

will positively impact their health and well-being. Additionally, we have equipped all schools with lice shampoo and combs to effectively combat and prevent outbreaks.

Through these initiatives, we are not only addressing immediate hygiene concerns but also promoting a culture of health and wellness among our students. Together, we are creating a safe and hygienic environment where children can thrive and succeed.

Boosting Our Online Presence: Let's Get Social

We are looking to enhance our social media presence and engagement and are delighted to have Jacky Williams generously donating her time and expertise to help us with this important initiative. Jacky brings a wealth of knowledge and experience in social media marketing, and we are grateful for her support in guiding us

towards creating engaging and impactful content for our community.

Stay tuned for exciting updates and engaging content as we work towards creating a more vibrant and interactive social media platform. Thank you, Jacky, for your dedication and support in helping us reach our goals.

Don't forget to give us a like to stay connected and support our mission.

Thank you for being a part of our community!

Donation Update...

In the current global economic climate, donation income, understandably, becomes tighter.

This financial year to date we have received B3.9m and we expect to raise this to at least B5m.

We understand how lucky we are with our donors and are very grateful for your continued loyalty and generous support
