BRIGHT DAWN FOUNDATION

NEWSLETTER

CELEBRATING 15 YEARS

In June 2025, we proudly marked the 15th anniversary of the Bright Dawn Foundation, celebrating a legacy of transforming lives for 700+ children across five schools in Hua Hin.

From improving health outcomes to enhancing education through skill-building programs, we've empowered communities with vital infrastructure.

Thank you to our donors and supporters for making this milestone possible!

You can watch our 15 year milestones video here:

DIRECTORS' MEETING SETS THE TONE

Our bi-annual Back to School Directors' Meeting brought together school leaders to align on goals for the new term. Discussions focused on expanding educational programs and improving facilities, ensuring our five schools continue to provide quality learning environments for all students.

INSPIRATION TRIP TO SILPAKORN UNIVERSITY

Recently, students from our schools had the privilege of visiting Silpakorn University for a day filled with enlightening hands-on workshops in Chemistry and Biology. This unique educational excursion offered our students a glimpse into the fascinating world of science. The trip not only sparked their curiosity but also broadened their horizons by exposing them to higher education opportunities in the field of science. It was an inspiring day that underscored the importance of scientific exploration and its potential for a brighter future.

ESSENTIAL SUPPLIES DISTRIBUTED TO STUDENTS

This term, we provided clothing, socks, and toothbrushes to all 700+ students across our schools. These essentials support hygiene and confidence, helping children focus on their education and personal growth.

ART STUDENTS TRANSFORM CLASSROOM

The art students from Hua Hin International School brought a burst of vibrant creativity to Wang Both School. With their brushes, they transformed the English classroom into a colorful canvas of engaging murals. This artistic endeavor has revitalized the learning space, introducing an element of inspiration and visual stimulation, which enhances the overall educational ambiance. The splash of colors in this refreshed environment now serves as a daily source of motivation for the students.

ANNUAL MEDICAL CHECKUPS FOR ALL

Mahachaipectharat Hospital conducted comprehensive annual medical check-ups for all students across our five schools. These vital health assessments play a crucial role in early detection and prevention of health issues, ensuring our children stay healthy. By safeguarding their health, we ensure they are primed and ready to absorb knowledge, fostering a conducive learning environment.

FUN DAY OUT AT BLACK MOUNTAIN

Our Fun Day was a resounding success as we took our students to the Black Mountain Water Park. Filled with laughter, fun, and bonding, this outing provided a refreshing break from routine and a chance to strengthen community ties. This day of joy and togetherness created lasting memories for everyone involved, encapsulating the spirit of camaraderie. This was our second trip to Black Mountain this year as we have switched our annual sports day from July to November.

LIONS CLUB PROVIDES EYE TESTS AND GLASSES

This year the Lions Club conducted comprehensive eye tests for all students across our five schools. This initiative helped identify those with vision needs and provided them with corrective glasses. Eyesight is fundamental to a child's learning. Thanks to the generous service provided by the Lions Club of Hua Hin's Site First project, our students can continue their educational journey with clear vision and focus.

We are incredibly grateful to the Lions Club of Hua Hin for their invaluable service. Their dedication to improving children's vision is truly commendable.

IN TERMS OF BROADENING HORIZONS AND ENHANCING VOCATIONAL SKILLS, WE ORGANIZED.....

Nong Kra Toom School launched a six-week football training camp, designed to engage students in a dynamic blend of physical fitness and teamwork. Under the guidance of local football experts, the students are not only honing their sporting abilities but also learning valuable life lessons in discipline and camaraderie. The end of each session sees the students showcasing their newfound skills in friendly matches, boosting their confidence and team spirit. This initiative fosters a healthy competitive spirit and promotes physical activity.

We held baking classes at Nong Hieng school, aimed at teaching students practical culinary skills in a fun, engaging manner. From mastering the art of baking cookies to whipping up delectable muffins, the children are not only learning new recipes, but also developing crucial life skills such as creativity and teamwork. This hands-on setting allows them to experiment and learn through practice, making education both fun and beneficial for their personal growth.

Weekly yoga classes were introduced at Nong Hieng school as part of our ongoing commitment to promote physical health and mental well-being among students. Guided by a trained yoga instructor, these sessions are designed to teach the students the vital skills of mindfulness and flexibility. These yoga classes not only contribute to their physical development but also help them to manage stress and maintain mental balance.

BRIGHT DAWNS RECENT SPECIAL PROJECTS

We've undertaken several projects to improve the facilities at Nong Kra, Nong Kra Toom and Huay Sai Ngam schools. At Nong Kra, the focus has been on upgrading the electrical system and installing security bars in the computer room, enhancing the learning environment for our tech-savvy students. At Nong Kra Toom we provided two smart TVs and addressed the basic necessities by repairing the toilets, promoting better hygiene and sanitation for our students.

At Huay Sai Ngam, our efforts have been concentrated on upgrading the kitchen facilities with new equipment. We also laid new grass for the sports field, providing a safer and more enjoyable recreational space for our students, fostering physical activity and team sports.

These projects align with our motto of "a hand up, not a hand out". We are committed to providing our students with the necessary resources and environment that stimulate growth, development, and self-sufficiency.
